PROFESSIONAL SUMMARY

UI/UX Designer with 2+ years of experience designing intuitive web and mobile experiences, from user flows and wireframes to high-fidelity prototypes. Brings hands-on experience testing applications, with a strong understanding of usability, functionality, and attention to detail. Skilled in responsive design, interaction design, dashboard design, and prototyping, with experience collaborating with developers, Business Analysts, and stakeholders to create simple, effective, and consistent digital experiences.

SKILLS

- **Design Tools:** Figma, Adobe XD, Photoshop, Illustrator, InDesign, Spline, Wix, DaVinci Resolve
- **UX Skills:** User Flows, Wireframing, Prototyping, Responsive Design, UX Principles, Heuristic Evaluation, Usability Testing
- **Design Systems & Accessibility:** Component Libraries, Material Design, Ant Design, WCAG Guidelines
- **Collaboration:** Agile Methodology, Stakeholder Interviews, Cross-functional Collaboration, Requirement Gathering, Design Handoff to Development

PROFESSIONAL EXPERIENCE

UI/UX Designer | GeethSoft

Jan 2025 – Aug 2026

- Designed UI screens from low-fidelity wireframes to high-fidelity prototypes and conducted application testing to identify usability gaps and pain points, ensuring user-friendly outcomes.
- Collaborated with developers and Business Analysts to review requirements and align on design solutions for smooth implementation.
- Followed Agile methodology and participated in stakeholder interviews to gather requirements and validate usability.
- Delivered responsive designs for mobile and desktop platforms, ensuring a consistent experience across screen sizes.

KEY PROJECTS

Accountant Application | *Finance Management App*

- Designed the main dashboard for income/expense overview, recent transactions, and invoice status tracking.
- Created wireframes and screens for Transactions, Mileage Log, and Reports modules, focusing on clarity and ease of use.
- Built low-fidelity to high-fidelity wireframes and advanced interactive prototypes to validate user flows before development.
- Designed the application for both mobile and desktop platforms, ensuring a fully responsive experience across screen sizes.

No-Code Application Builder | *Drag-and-Drop Platform*

- Worked in an Agile team environment; participated in stakeholder interviews to gather requirements for a no-code, drag-and-drop platform.
- Designed multiple reusable components enabling users to build mobile and desktop applications/websites without coding.
- Created low-fidelity to high-fidelity wireframes, defining layouts, elements, and sections for the builder interface.
- Collaborated closely with the team to keep the design simple, intuitive, and user-friendly.

AI Playground | *LLM-based Chatbot Platform*

- Designed the user interface allowing users to configure and customize LLM models according to their preferences.
- Created a flexible chatbot design interface, enabling users to personalize chatbot behavior and appearance based on their needs.
- Focused on making complex AI configuration options simple and accessible through intuitive UI design.

Design System Development | *Component Library*

- Contributed to building a design system/component library inspired by standards like Google Material Design and Ant Design.
- Designed clean, reusable, visually consistent UI components for use by developers and designers across projects.
- Helped standardize design elements to improve consistency and speed up development handoff.

EDUCATION

Bachelor of Arts (BA) — Psychology
Vision Institute | 2025 – Present (2nd Year)

Diploma in UI/UX Design & Graphic Design
DICE Academy | Nov 2023 – Jun 2024
